EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Darling (Reg. No. 44,482) on June 12, 2006.

The application has been amended as follows:

Please cancel claims 67, 69-71, 99, 100, 105, and 106.

Allowable Subject Matter

2. Claims 46-49, 72, 73, 94, 101, and 102 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is Westerlage et al. (U.S. Patent No. 5,694,322) in view of Hassett (U.S. Patent No. 6,653,946). Westerlage teaches the details of tracking the location of a vehicle and mapping it to a stored toll region with corresponding toll charges to charge tolls accordingly. Hassett addresses different charging schemes in which a vehicle contains an IVC (in-vehicle component) that receives toll schedule data (from a ground toll station that detects the vehicle's location in its vicinity) for the particular class, including size, of vehicle wirelessly soon after the vehicle enters or shortly before the vehicle exits a toll area. Neither Westerlage nor Hassett discloses or

suggests that the area where a charge is applied is divided into sub-areas by substantially concentric circles wherein a charge amount for each sub-area is set such that the closer a sub-area is to the center of the area where a charge is applied, the higher the charge amount becomes. Claims 46-49, 72, 73, 94, 101, and 102 recite these features in combination with a toll system that charges tolls based on matching the position of a moving body with predetermined map information (with corresponding toll charges set therein), which is not disclosed or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susanna M. Diaz whose telephone number is (571) 272-6733. The examiner can normally be reached on Monday-Friday, 10 am - 6 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tariq Hafiz can be reached on (571) 272-6729. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
